College: University At Buffalo

Major League Affiliation: Toronto Blue Jays

I was drafted in the 29<sup>th</sup> round 880<sup>th</sup> overall in the 2009 armature draft out of the University Of Buffalo. I am a pitcher whose main role is closing but am in the process of making a transition to the set up role. I came into contact with Rick via facebook and looked into his organization. He is a very caring man that has step forth to donate his time and efforts in an attempt to make the lives of people less fortunate better. By working with terminally ill children Rick helps them experience all they can while they can, and that is an organization that I am glad to be a part of. All of my prayers and wish's go out to the families and individuals that have been victimized by such diseases, your strength and perseverance is motivation to us all. God Bless.
